# Agenda

- 1 SICK AG : Lead Management Project
- 2 Oracle Cloud World Event Feedback
- 3 Eloqua 22D Release

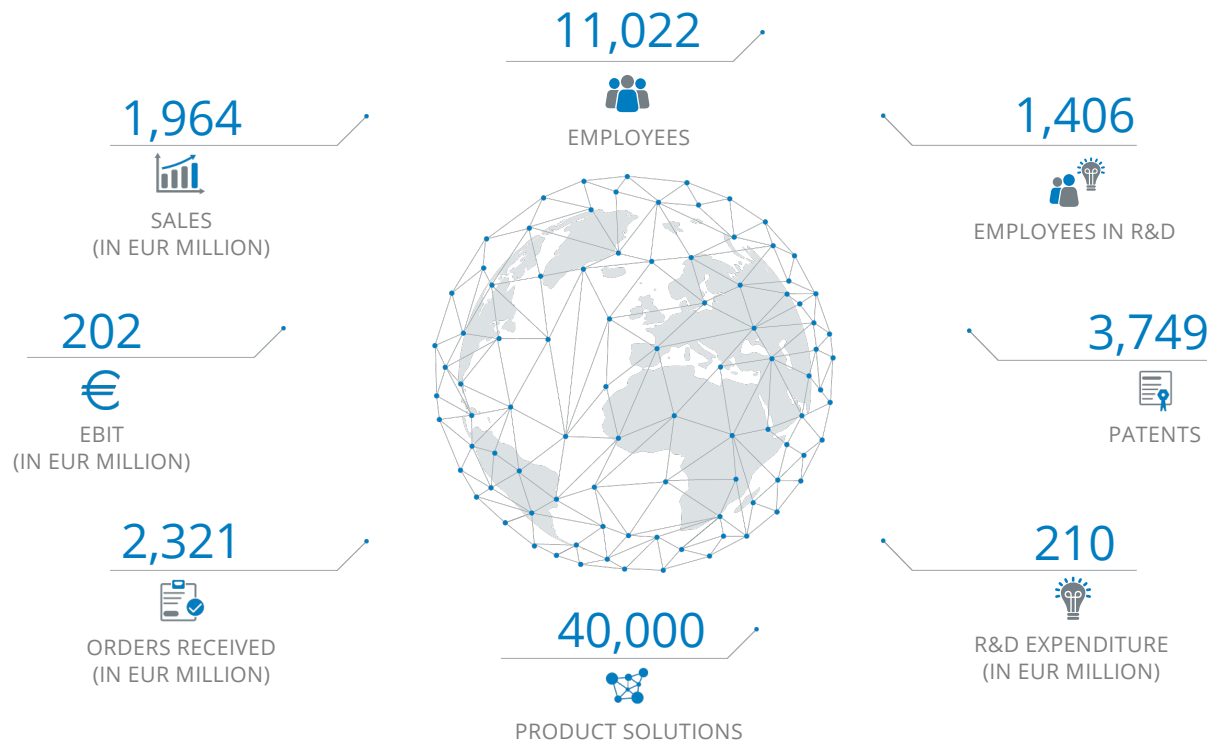

# **SICK AG: LEAD MANAGEMENT PROJECT**

# SICK at a glance

Key figures (fiscal year 2021)

# Something to start with

A long time ago in a galaxy far, far away....

©2012 LeadFormix Inc.

Guys you will need to at least  
talk to each other to begin  
the qualification process for leads.

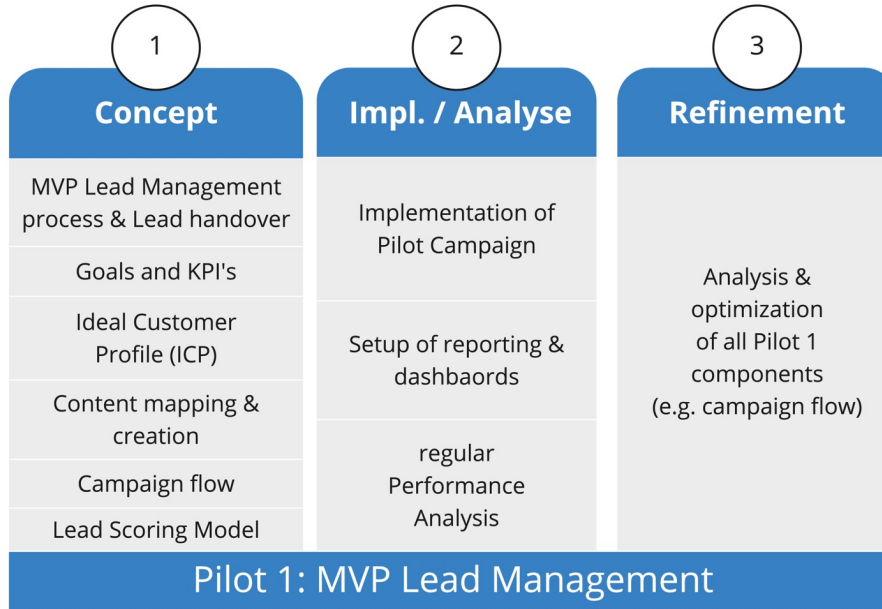

©2012 DemandGen International, Inc.

# How can we effectively and efficiently convert leads into buyers?

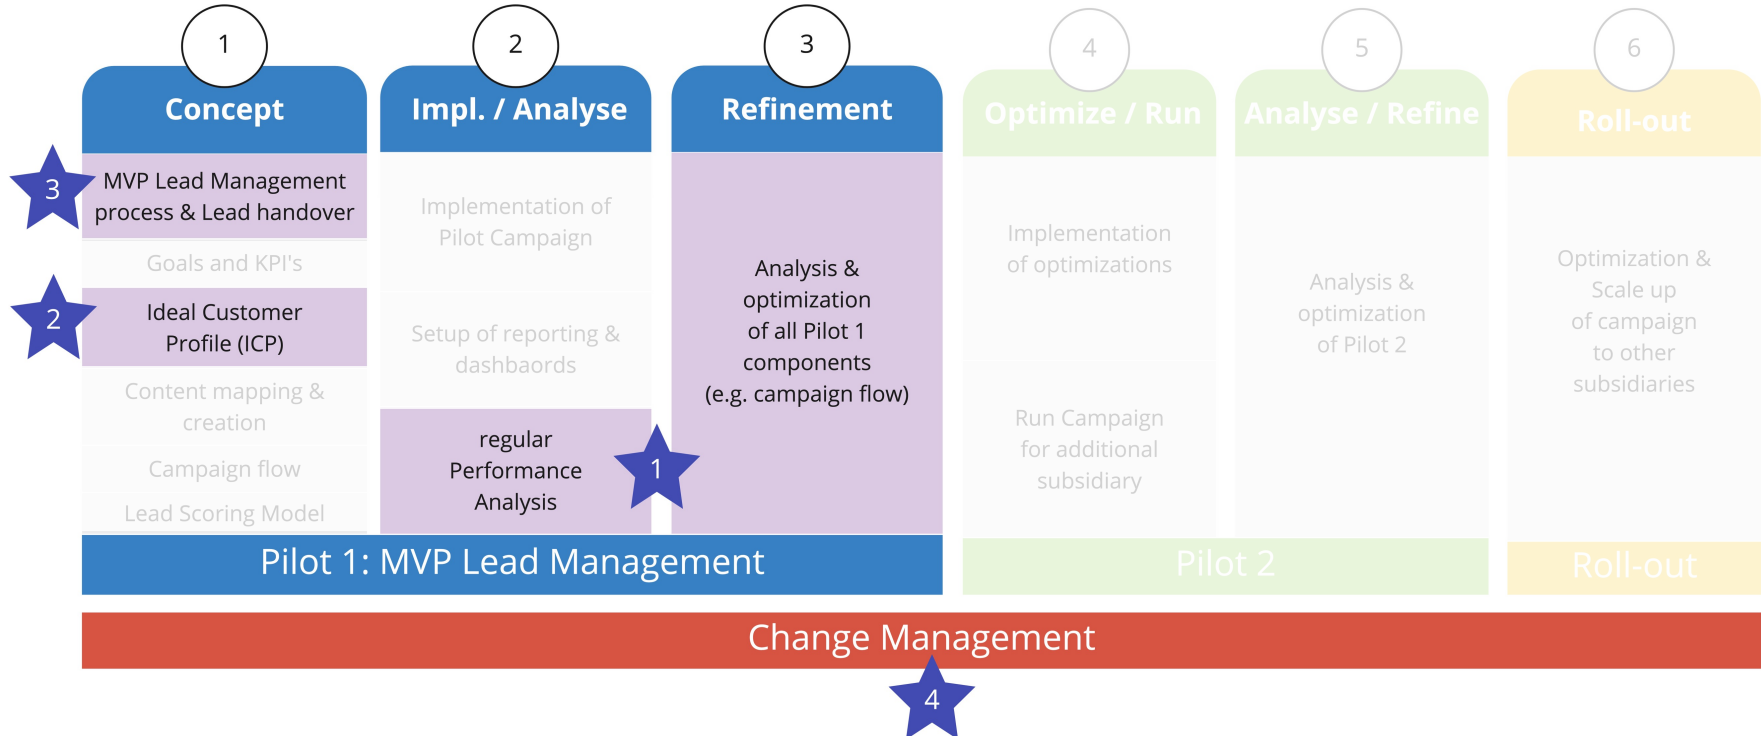

# Lead Management Project at SICK – The approach

**Goal:** build a first modern lead management approach which is scalable for future and more pilot campaigns to come  
focus: **start small, more sophisticated later**

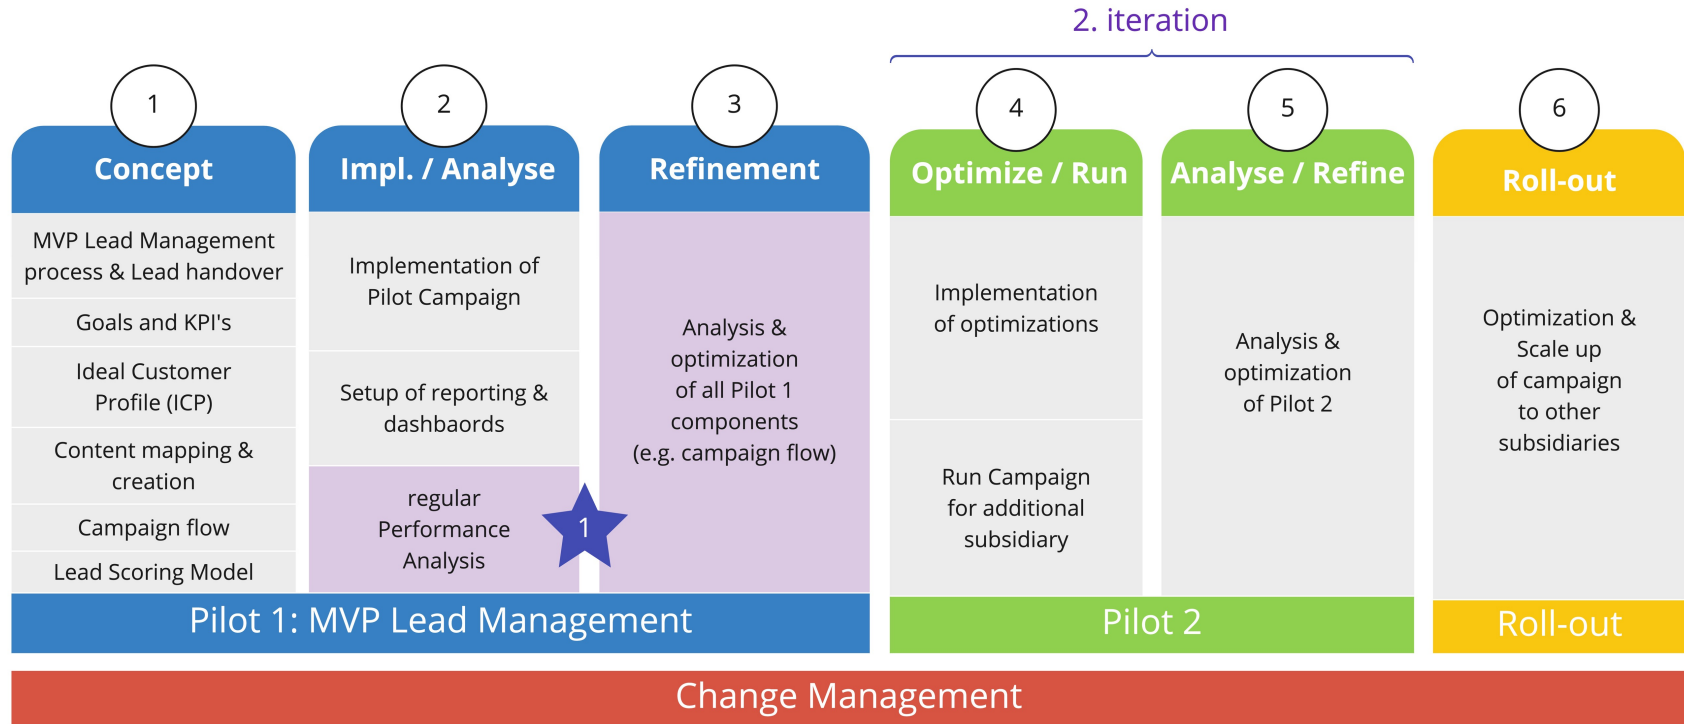

# Lead Management Project at SICK – The approach

**Goal:** build a first modern lead management approach which is scalable for future and more pilot campaigns to come  
focus: **start small, more sophisticated later**

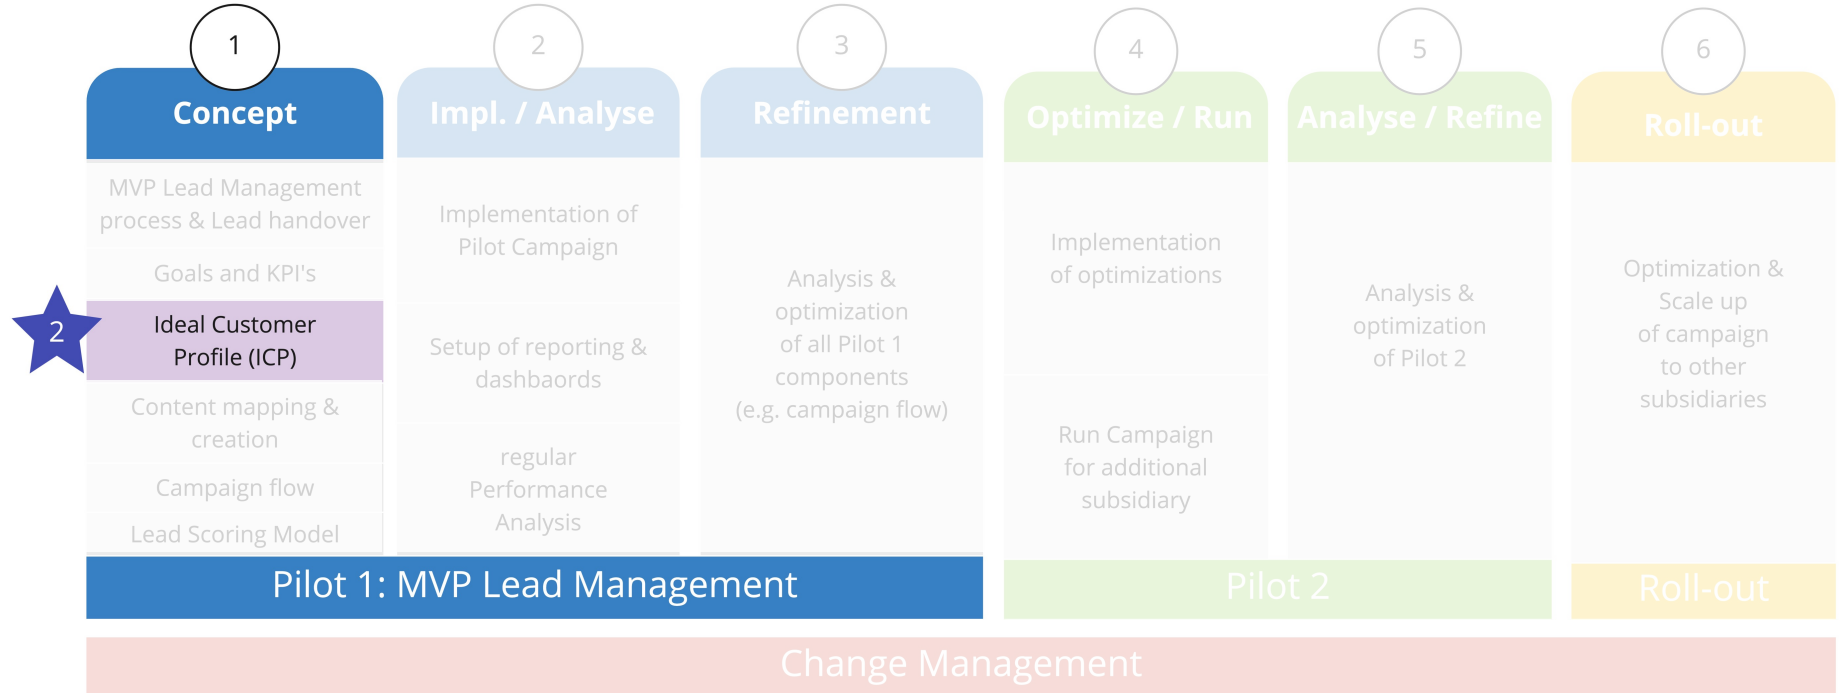

# Analysis and Refinement – an iterative process

# Lead Management Project at SICK – The approach

**Goal:** build a first modern lead management approach which is scalable for future and more pilot campaigns to come  
focus: **start small, more sophisticated later**

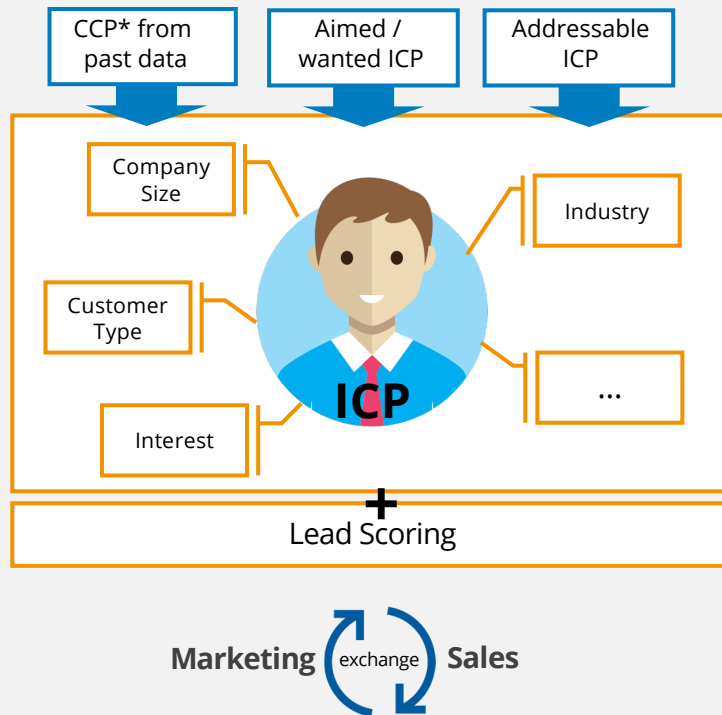

# Definition of the Ideal Customer Profile (ICP)

Focus: Start small, more sophisticated later

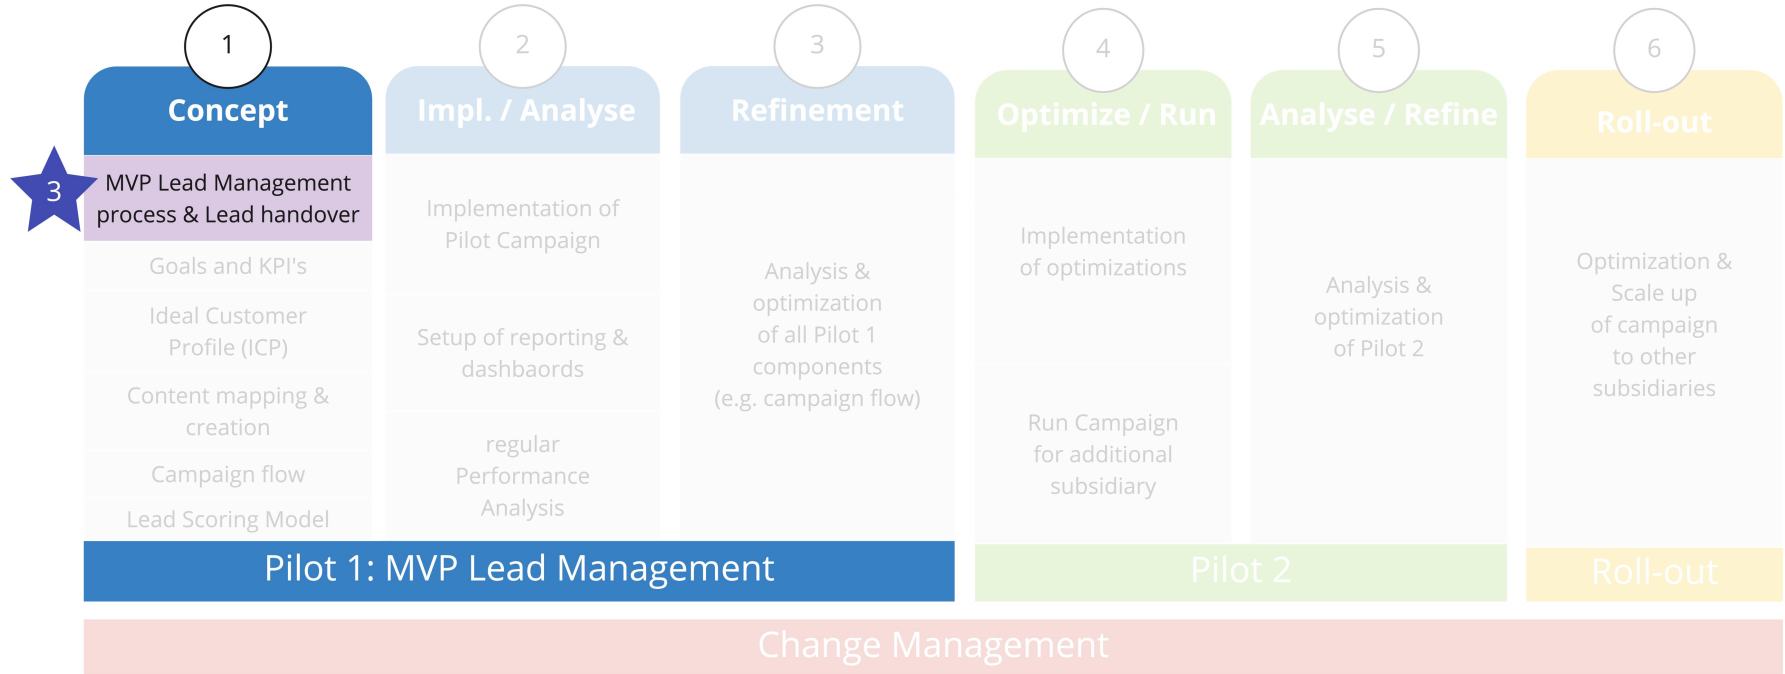

- › **Step 1:** Selection of a specific criteria and review of Lead Scoring Profile to combine for most wanted Leads
- › **Step 2:** Refinement of ICP through data-driven Marketing approach

## B2B Data-driven Marketing Approach

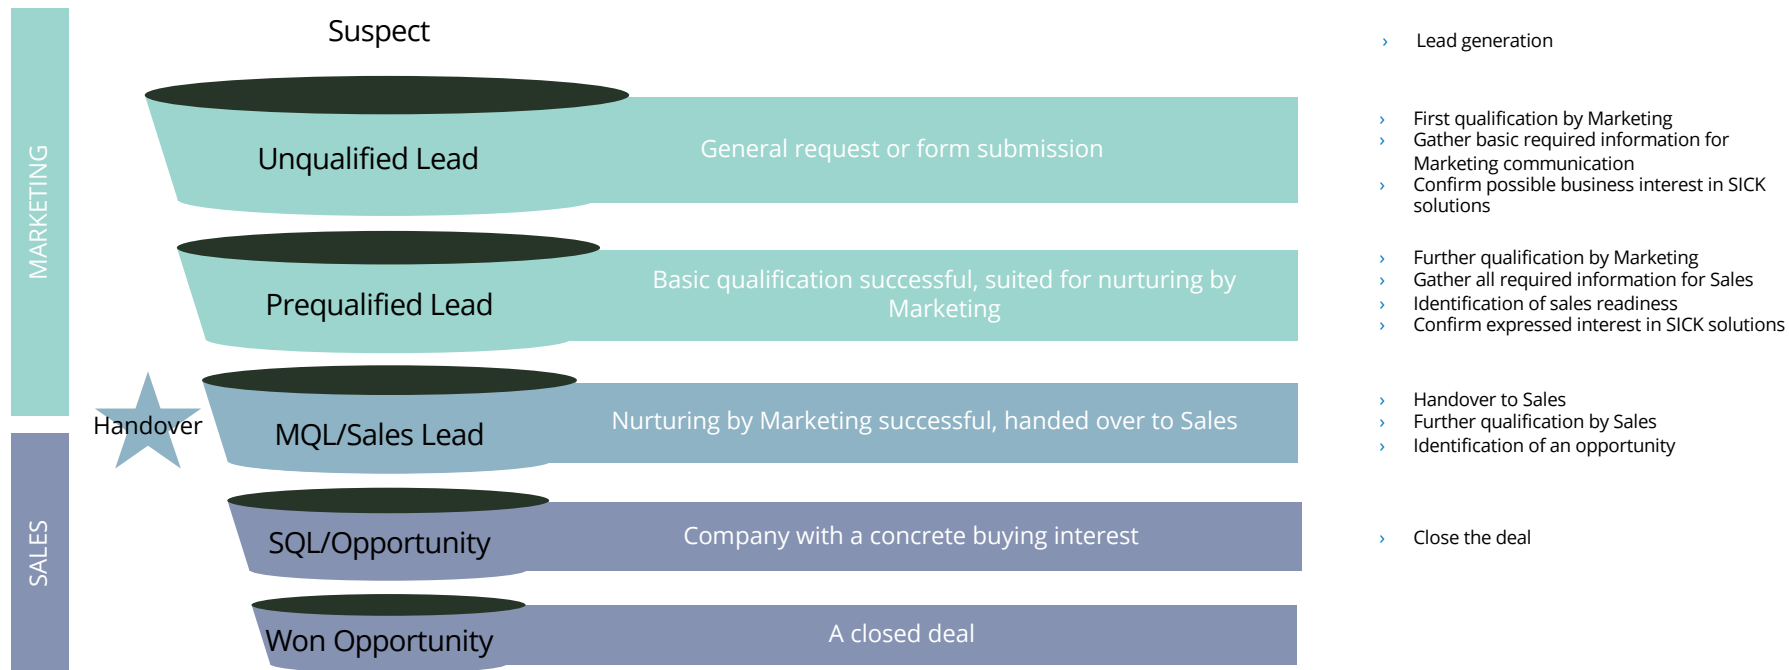

# Lead Management Project at SICK – The approach

**Goal:** build a first modern lead management approach which is scalable for future and more pilot campaigns to come  
focus: **start small, more sophisticated later**

# Lead Management Funnel & Lead Status

# Evolution of data in the data-lake-house

How unsorted data will become business relevant leads

## User-profile to handover

Only profiles with highest lead-scoring will be handover to Sales

Handover

## Complete profiles

High scored profiles will hand-over to the target system Eloqua. Visualization of information on Leads for Sales

## Taking action to a higher score

Triggering standardized processes to uplift the scoring

Nurturing Data

## Uplifting profiles

Gathering similar scored profiles

## Using aggregation for holistic view

Using standardized aggregation to built lead-profiles based on a scoring-model

Aggregating Data

## Creating scored profiles

User-profiles will be sorted by a scoring-model

## Setting-up all the data-source

Bringing together data from Eloqua, Adobe, Hybris, Classy, SAP

Unsorted Data

## Creating an unsorted profile

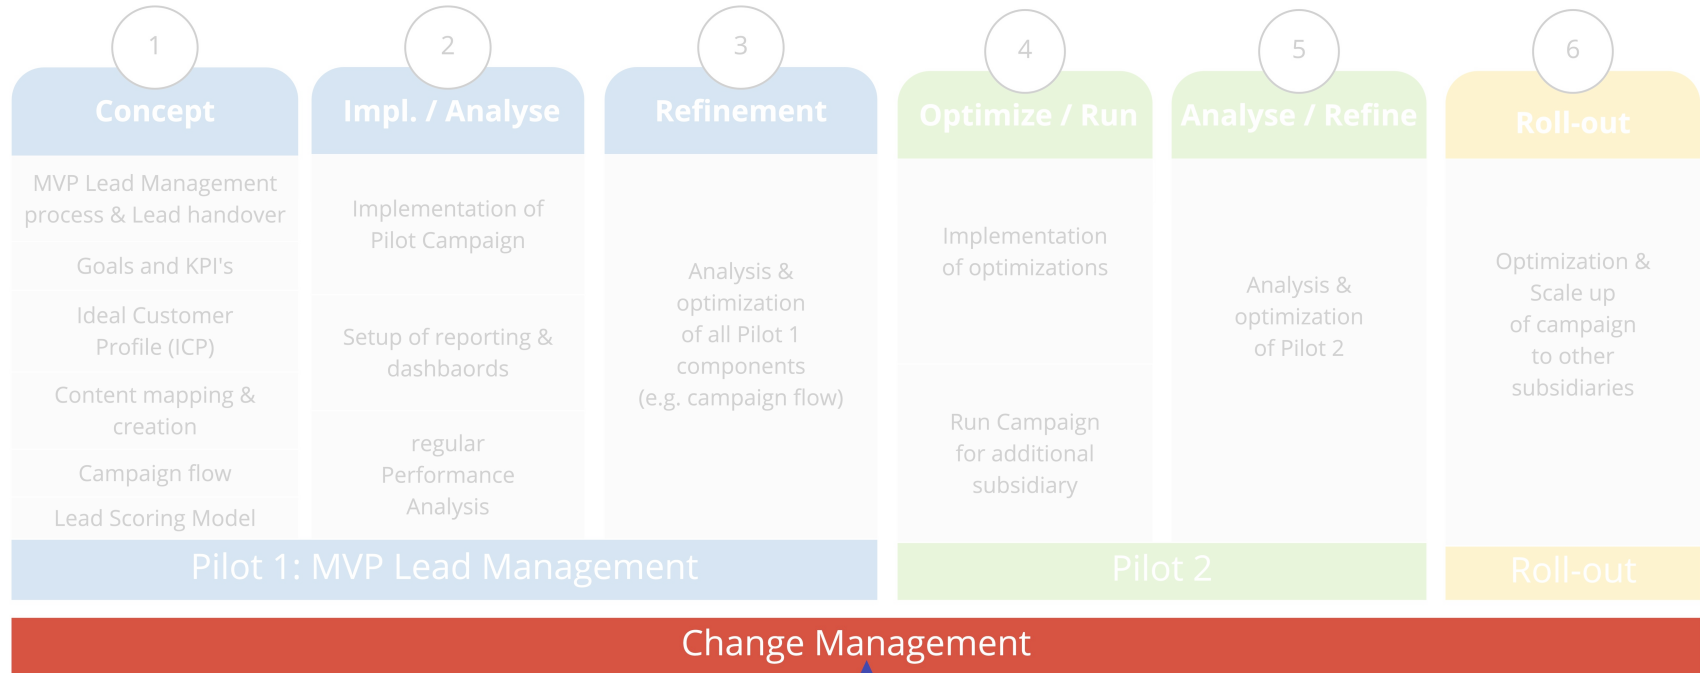

Putting all data of one user (email) into one holistic profile

# Implementation / Analyse – Data Lake House

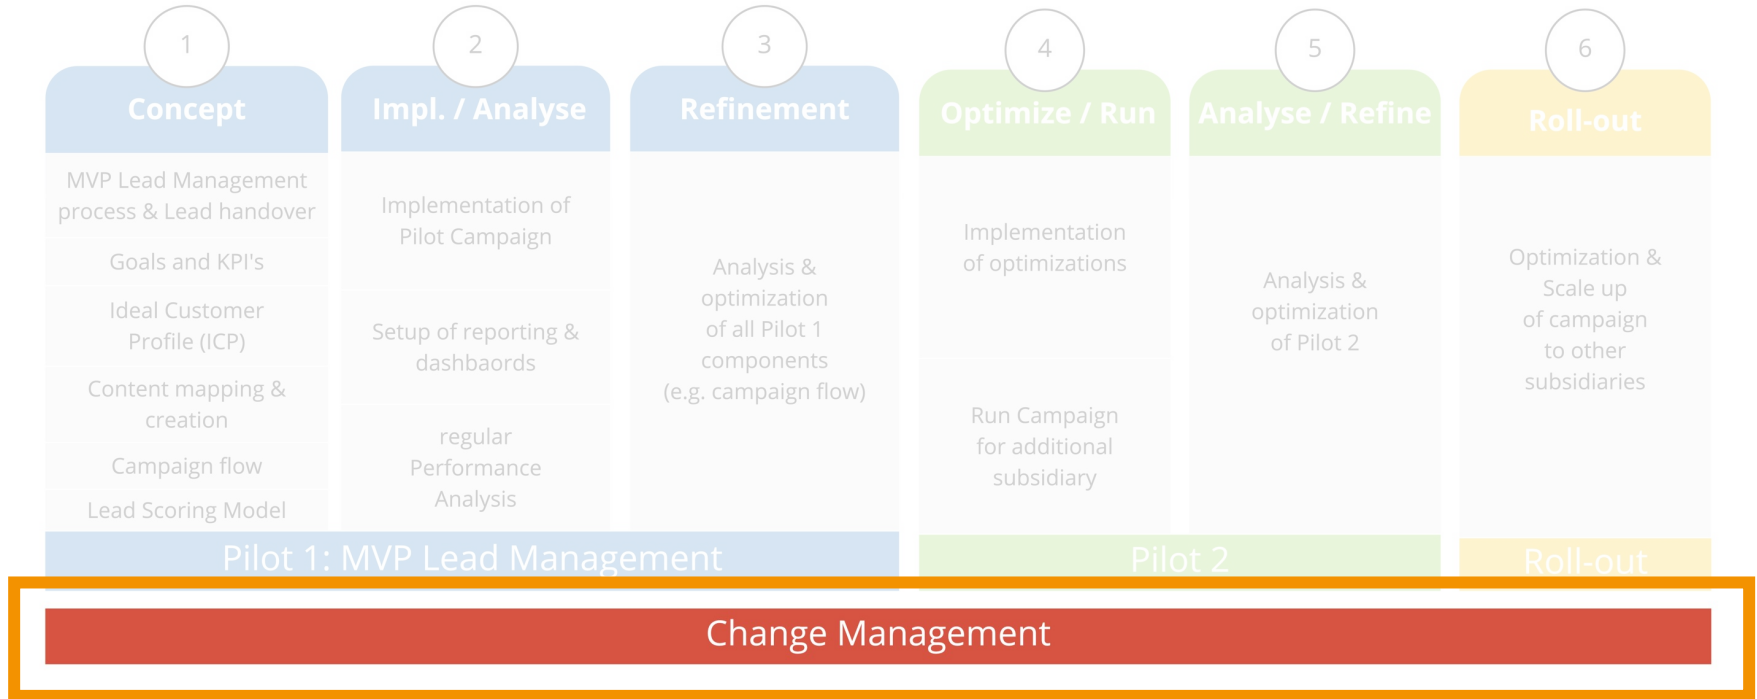

# Lead Management Project at SICK – The approach

**Goal:** build a first modern lead management approach which is scalable for future and more pilot campaigns to come  
focus: **start small, more sophisticated later**

# Changemanagement is the fundament

# The Kotter Model

Our iceberg is melting

# What happened so far

## **Sense of Urgency**

- › Why
- › Change Story (How/What)
- › Feedback for goals (User & Stake-holder)
- › Application for being a participant

## **Forming guiding coalition**

- › Commitment of board
- › Stakeholder-Analysis
- › Change-Consultants

## **Vision and strategic initiatives**

- › Vision
- › Work packages: Enablement, Content, technical Requirements, Processes

## **Volunteer army**

- › Early Adopter
- › Promoter on Management-Level

## **Remove obstacles**

- › Enablement (asynchrony learning-module)
- › Iterative project-management

## **Celebrate quick wins**

- › Pilot-Campaign
- › Standardization of Templates
- › Scoring-Modell
- › Data-Lake

- › Management commitment/support is highly needed
- › Leadmanagement is NOT a Marketing or a Sales topic, it is an organizational topic
- › Participation of target group already during project set-up and active application for project participation (e.g., early adopter, pilot etc.) help to create a flow.
- › Focus during the complete project is enabling the different "target groups"
- › Iterative approach helps to show results and improvements (e.g., refinement of pilot)

# Results

# Results overview in our Lead Scoring Model

interim status

GIT		Engagement				
Profile	GIT	1	2	3	4	Total Contacts
	A	0	2	4	6	12
	B	0	4	4	14	22
	C	1	0	2	5	8
	D	0	0	0	0	0
	<b>Grand Total</b>	<b>1</b>	<b>6</b>	<b>10</b>	<b>25</b>	<b>42</b>

GUS		Engagement				
Profile	GUS	1	2	3	4	Total Contacts
	A	1	6	16	7	30
	B	0	3	5	9	17
	C	0	3	8	1	12
	D	0	0	1	1	2
	<b>Grand Total</b>	<b>1</b>	<b>12</b>	<b>30</b>	<b>18</b>	<b>61</b>

- › Scoring must be iteratively improved
- › Constant improvement of content-creation is one key of success
- › Data Quality of target group have to increase
- › Enduser performed better than OEM
- › Best Performance at emails: OEM
- › Paid Ads: Enduser
- › Google Ads were more efficient than LinkedIn

# L2S WP Achievements & Current Progress

## WP: Lead Management Processes & Methods

- › Marketing lead management process
- › Lead management funnel & lead status incl. Marketing Qualified Lead
- › Handover process

## WP: Content Management

- › Content creation
- › Content optimization

## WP: Standardization Factory

- › Landingpage & form templates
- › LinkedIn integration

## Tool Landscape

- › Data Lake & first aggregation
- › Native API (CRM/Eloqua)

## WP: Performance Measurement:

- › Click & channel tracking
- › Lead Management KPI & dashboards

## WP: Change & Enablement:

- › Change concept
- › Early Adopter concept
- › Change story

**Thank you for your attention**

# ORACLE CLOUD WORLD EVENT FEEDBACK

A large-scale photograph of an event space for Oracle CloudWorld. A massive blue screen dominates the background, displaying the event's name in white. The screen's left side features a pattern of small blue dots, while the bottom left corner has white wavy lines. In the foreground, a curved glass railing is visible on the left. The floor is covered with a patterned carpet, and a person is walking in the distance. To the right, a large glass entrance is visible, and a stylized leaf logo is mounted on the wall above it.

# WHAT IS IN FOR US

## ELOQUA

### a new approach to UX

- Consumer Grade+ UX
- Powerful, Deep Search
- State-of-the-Art AI/ML
- Best-in-class Data Visualization
- Guided user actions

Advertisement  
The Advertising  
roadmap includes  
adding native  
support for many  
additional  
channels with a  
new integration to  
Oracle  
Advertising's  
Media Bridge

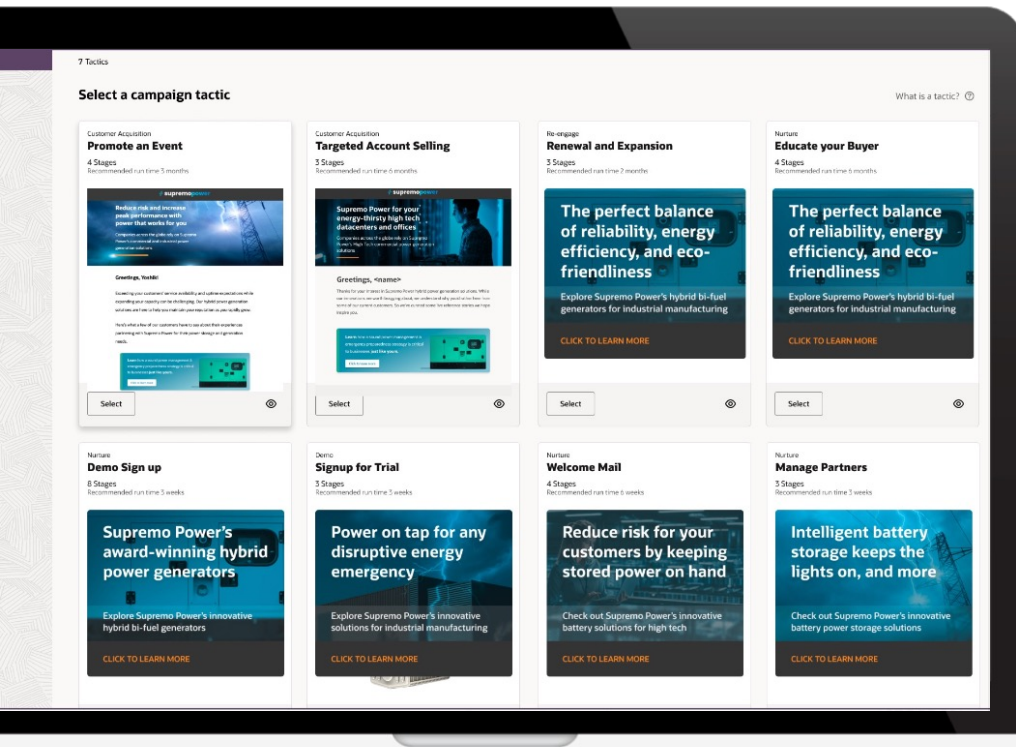

### Fusion marketing

- Consumer Grade+ UX
- Powerful, Deep Search
- State-of-the-Art AI/ML
- Best-in-class Data Visualization
- Guided user actions

# FUSION MARKETING

## ELOQUA

- ✓ Pre-built campaign tactics and workflow to simplify executing on common goals
- ✓ Create a new campaign from predefined campaign templates

# ELOQUA 22D RELEASE

## Updated Webex App

- Supports Cisco's new Webex Webinar offering
- Supports all functions of the existing (classic) Webex Meeting and Events app
- Actions for webinar and meeting registration
- Feeder for webinar and meeting registration and attendance
- Decision for webinar and meeting registration and attendance
- See app listing [here](#)

## Recent Fusion Marketing Updates

- **Create an Email from Template**
  - Select from predefined email templates in Eloqua to create and edit personalized emails directly in Fusion Marketing
  - New visual editor
- **Customer Story review in a Campaign**
  - Review the customer stories and override recommendations at a Campaign level
- **Send Oracle Unity segments into Fusion Marketing**
  - Export Oracle Unity segments to create either a new Fusion Marketing Audience or update and existing audience

## Access to Microsoft Outlook Add-in Now Managed by License\*

- Oracle Eloqua Sales Tools for Microsoft Outlook update coming in the 22.12 release
- After update, users must have both the Engage and Outlook licenses to login to the add-in
  - No additional purchase necessary
  - Licenses managed in Eloqua
- Plugin will update automatically, and users can continue to use Outlook during update
- If your IT department wants to manage the release, a mass deployment is required before the release
  - Contact support for details on mass deployment

\* Oracle Eloqua Sales Tools for Microsoft Outlook add-in release date: Friday December 16, 2022

## Engage Send Limits – Generally Available\*

- Manage the number of emails a sales rep can send to the same contact over a period of days
- Use limits to
  - Prevent contact fatigue and unsubscribes
  - Maintain domain reputation
- Limits apply to both Engage and Oracle Eloqua Sales Tools for Microsoft Outlook
  - Limits do not impact Eloqua marketing sends

App Configuration for Engage

Oracle | Eloqua Engage

Settings

App

Allowed Domains

### Engage Settings

- Recipients ☒ Enable recipient autocompletion  
☒ Restrict the maximum number of recipients to:

- ☒ Enable contact send limit

This many emails can be sent to the same contact within the specified number of days. Setting applies to emails sent from Engage only.

Number of days within send limit

Email sends per contact within send limit

- Email Settings ☐ Customize how emails are sent from Engage

- Email Creation ☒ Allow use of block templates  
☒ Allow creation of shared templates

- Content ☒ Allow images  
☒ Allow attachments  
☒ Enable field merges

- Text Formatting ☒ Enable font colors and font highlighting  
☒ Enable font and font size selection

- Template Sorting ☒ Recently Modified  
☐ Alphabetical

## Eloqua Salesforce Integration App

### Import:

- If the Salesforce Account object Billing address field value exceeds 100 characters, the App will automatically split it into Eloqua Account Address, Address 2 and Address 3 fields
- The newline character can be added to instruct the App how the lengthy Billing address value should be split

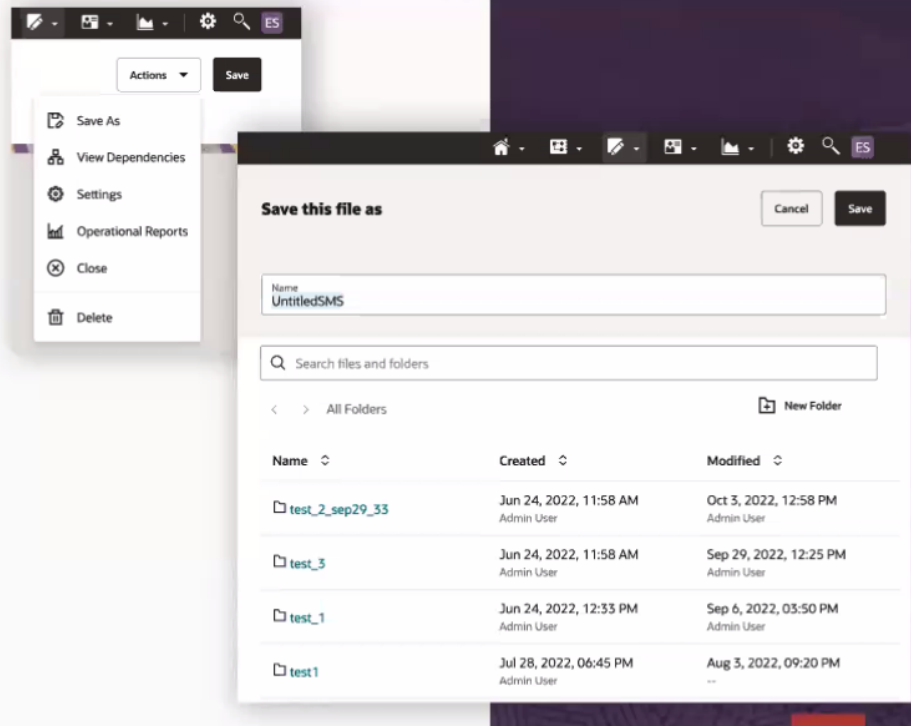

Billing Street Split Value Line 1 BillingStreetLine1	textarea	→	Address M_Address1	text	≡
Billing Street Split Value Line 2 BillingStreetLine2	textarea	→	Address 2 M_Address2	text	≡
Billing Street Split Value Line 3 BillingStreetLine3	textarea	→	Address 3 M_Address3	text	≡

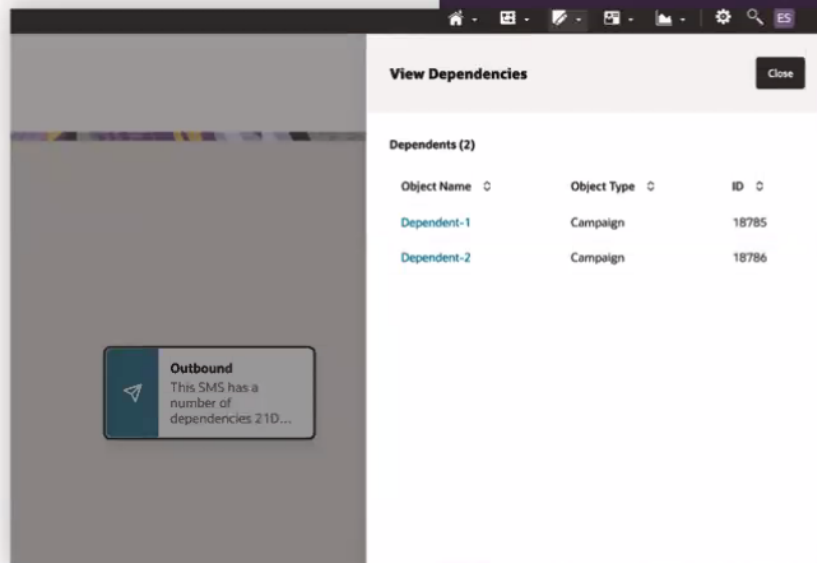

## SMS Enhancements: Save As

- Save As option is now available in the SMS editor

## SMS Enhancements: View Dependencies

- View dependencies for an SMS
  - SMS assets can be part of multiple Eloqua objects, resulting in dependencies
  - You can now view the list of all dependencies for an asset from the SMS editor

## SMS Enhancements: Keyword addition restricted to two-way codes

- Keyword addition restricted to two-way codes only
  - You will now be able to add keywords only for two-way codes from the SMS setup
  - One-way codes do not support MO traffic and will not listen for keywords in an SMS

**Add Keyword** Cancel Save

**Code Details**

Code: 9595383383 India Code Type: Long

You can add keywords only for two-way codes.

# Insight: Database Growth Trend Report

## New standard report: Database Growth Trend

Leverage this new standard report to gain a deeper understanding on database growth trends.

- Features new calculated measures to show growth rates for *Total Contacts* and *Reachable Contacts*
  - Includes visual indicators to show upward or downward trends in growth rates
- Prebuilt graphs to visualize growth trends in Total Contacts and Reachable contacts

This report is located in the Shared Folder > Contacts

# Insight: Contact Field Analysis

## New standard report: Contact Field Analysis

The Contact Field Analysis report provides a breakdown on field usage.

This report features:

- New calculated measures
  - Total Values
  - % Populated
  - Missing Values
  - % Missing Values
- Stacked bar chart to visualize the relationship between fields populated vs missing values

*This report is located in the Shared Folder > Contacts*

*Note this report does not contain custom fields; we will continue to expand on this report and custom field reporting.*

Contact Field Analysis

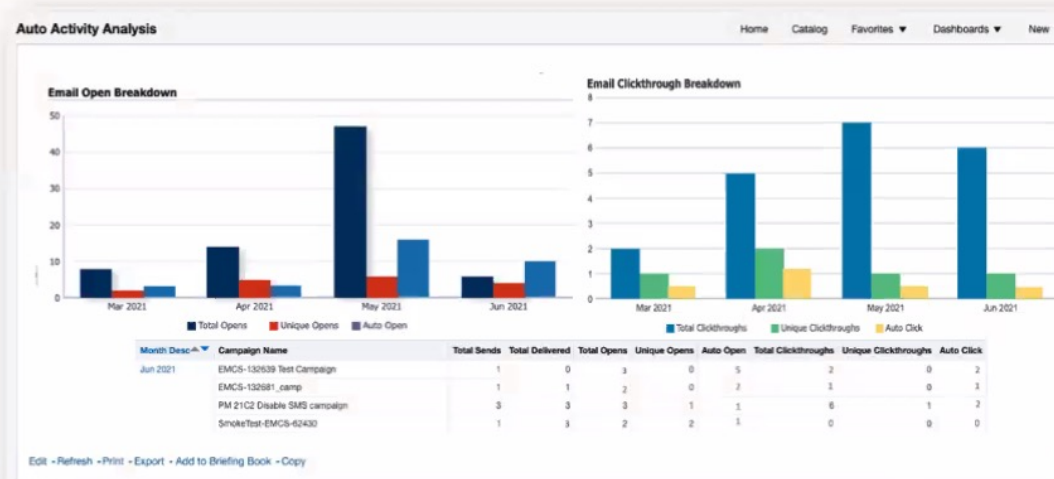

Entity Field Name	Total Values	% Populated	Missing Values	% Missing Values
Address 1	4553182	76.29%	1415379	23.71%
Address 2	113	0.00%	5968448	100.00%

## IP Allowlist Options Updated

- With the 22D release, three options introduced to govern IP allowlisting
- **Match Source Address** – default option, maintains same IP source as pre-22D
  - Standard option, works for most situations
- **Match Last Transport Source Address** – uses network transport layer as the IP source
  - If all connections to Eloqua are via a proxy, for example
- **Match Any Address in Proxy Chain** – uses any address in XFF\* header as IP source
  - If additional addresses are added to the XFF header by a proxy, for example

\* XFF = X-Forwarded-For

### IP Allowlisting - Disabled

#### Address Source Matching:

- ☐ Match Source Address
- ☐ Match Last Transport Source Address
- ☒ Match Any Address In Proxy Chain
